

**SUBAREA C6**

Subarea C6 is located south of Davidson Road, west of I-270, and adjacent to Leap Road. The site is 4.7 +/- acres. There shall be a  $\pm$  2.0 acre water tower park within this subarea.

**I. Permitted Uses**

1. The uses listed below shall be permitted uses within this Subarea.
  - a) Institutions and Offices
  - b) Public Uses
  - c) Semipublic Uses
  - d) Regional and Professional Offices
  - e) Professional Activities
3. Restaurants and Banks shall be permitted within office buildings, subject to conditional use review by the Planning Commission.
4. Parking Garages, Warehousing, Wholesale Business, Food Processing and Limited Manufacturing shall be permitted, subject to conditional use review by the Planning Commission.

**II. Unit Types**

Office buildings shall comply with the design guidelines of the development standards in this text.

**III. Development Standards**

Unless otherwise specified in the submitted drawings or in this written text the development standards of Chapter 1157 of the Codified Ordinances of the City of Hilliard shall apply to this subarea. Basic development standards are compiled regarding proposed density, site issues, traffic, circulation, landscape and architectural standards. These component standards ensure consistency and quality throughout the parcel's development.

**C6.01 Density, Height, Lot and/or Setback Commitments**

1. There shall be a maximum density of 14,000 square feet per acre.
2. There shall be a minimum building footprint of 20,000 square feet.
3. The lot coverage shall not exceed 40% for all uses as defined by Hilliard City Code Section 1127.03. Total impermeable surface coverage shall not exceed 70%.
  4. The maximum height limit shall be 45 feet.
  5. There shall be a minimum height of 2 stories for office buildings. One story attached warehouses shall be permitted with conditional use approval. Building materials for the warehouse shall be compatible with the office building.
  6. There shall be a minimum side yard of 20 feet.

7. There shall be a 50 foot building and pavement setback from the right-of-way of Anson Drive.
8. There shall be a 30 foot building pavement setback from the right-of-way of Proposed Road "G".
9. There shall be a 40 foot building and pavement setback from the right-of-way of Leap Road.

**C6.02 Access, Loading, Parking and/or Traffic Related Commitments**

1. Parking and loading requirements for an individual use shall be as set forth in Hilliard City Code Chapter 1133.
2. Cross-access easements shall be provided within this subarea where feasible.

**C6.03 Architectural Standards**

1. Color Palette: Buildings shall be constructed of subdued, earth tone materials; muted colors are preferred. Accent colors brighter hues are permitted for building accent features only.
2. Materials: Brick, stone, stucco stone, pre-cast concrete and glass are all permitted building materials. Metal may be used as an accent material only.
3. Roof: Flat roofs are permitted, provided all roof top mechanical units are fully screened from view.
4. Articulation and Fenestration: Buildings shall have a consistent finish on all four sides. Fenestration shall be proportional with building size and massing.
5. Lot Coverage: Lot coverage shall not exceed 70% impervious surface. Impervious surface shall be defined as the building footprint and all paved surfaces including parking lots, but shall include any interior parking lot landscaping or other similar unpaved surfaces.
6. Side Yard Standards: A minimum building side yard of 1/4 the sum of the height of the structure and the length of the wall parallel to the side lot line (1/4 (height + length)). In no case shall the side yard be required to be more than 50 feet or less than 20 feet.

**C6.04 Buffering, Landscaping, Open Space and/or Screening Commitments**

1. Landscaping:
  - a) All landscaping shall be in accordance with the requirements of Hilliard City Code Section 1331.
  - b) Any portion of a lot upon which a building or parking area is not constructed shall be landscaped with lawn as a minimum. Those areas designated as landscaped buffers, tree lawns, tree preservation zones, entry features or other landscaped features shall be maintained meeting the minimum standards in Hilliard Codified Ordinances Chapters 917, 921 and 1331. The use of in-ground sprinkler systems, where appropriate, is strongly encouraged.
  - c) There will be a  $\pm$  2.0 acre water tower park located within this subarea. This park will be

dedicated to the City at the time of zoning approval to allow for the water tower facility.

- d) Street trees will be planted at a minimum distance of 40 feet on center along Leap Road, Anson Drive and Proposed Road "G". Trees will be of a deciduous species normally attaining full grown height in excess of 50 feet and will be of 2 ½" caliper or greater at the time of planting.
- e) Fencing shall be permitted within this subarea with conditional use approval.
  - f) There shall be a 3' (ht.) hedge or earth mound along the pavement setback of Leap Road, Anson Drive and Proposed Road "G" wherever structures do not exist at the building setback line.
  - g) Protection of Landscaped Islands: Parked vehicles may hang over the interior landscaped area not more than two and one-half feet, as long as concrete or other well stops are provided to insure no greater overhang or penetration of the landscaped area. All parking spaces and landscaped islands shall meet the requirements of the Hilliard Codified Ordinances, Chapters 1133 and 1331.

Landscape plans shall be reviewed and approved by the Hilliard Shade Tree Commission at the Final Development Plan stage.

**C6.05 Dumpsters, Lighting, Outdoor Display Areas and/or other Environmental Commitments**

1. All parking lot lighting shall not exceed 18 feet in height from finished grade.
2. External lighting shall be cut-off type fixtures.
3. There shall be a consistent and uniform lighting fixture for parking lot lighting within all office areas, as approved by the Hilliard City Engineer.
4. There shall be a consistent and uniform lighting fixture for street lights and parking lot lighting within all industrial areas, as approved by the Hilliard City Engineer.
5. All types of parking, pedestrian and other lighting shall be on poles or wall mounted cut-off fixtures and shall be from the same type and style.
6. All light poles and standards shall be metal and shall be black or dark bronze in color.
7. Parking lot lighting shall be high pressure sodium. Building and landscaping lighting shall be incandescent or metal halide.
8. Landscape and building uplighting from a concealed source shall be permitted.
9. All lights shall be arranged to reflect light away from any street or adjacent property.
10. All building illumination shall be from concealed sources.
11. No colored lights shall be used to light the exterior of the buildings.
12. Waste and Refuse:
  - a) All waste and refuse shall be containerized and screened from view on-three sides by a

solid brick wall, wood fence, or materials compatible with building materials and at least 6 inches taller than the height of the dumpster. The fourth side shall contain a wood gate at least 6 inches taller than the height of the dumpster.

13. Storage and Equipment and Service Areas:
  - a) No materials, supplies, equipment or products shall be stored or permitted to remain on any portion of the parcel outside the permitted structure. Mechanical equipment or other utility hardware on roof, ground, or buildings shall be screened from view with material harmonious with the building.
  - b) All refuse trash and garbage collection shall be enclosed or not visible from the street or adjoining property.
  - c) No noises, smoke, odors, vibration or other nuisances shall be permitted.
  - d) No area of the site will be used for outdoor storage.
  - e) Service courts and loading docks shall be screened from all streets or adjacent buildings by landscaping, mounding or walls.

**C6.06 Graphics and Signage Commitments**

1. All signage and graphics shall conform to the Hilliard Graphics and Sign Code Chapter 1191.
2. The development shall utilize standard City of Hilliard street and regulatory signage. Other signage may be used subject to approval by the City of Hilliard Graphics Commission.

**C6.07 Miscellaneous Commitments**

1. Utilities: All utility lines including water service, electricity, telephone and gas, and their connections or feeder lines shall be placed underground. Provided, however, that the existing overhead transmission lines shall remain above ground. Meters, transformers, etc. may be placed above ground, but shall be screened from view. Where feasible, all above ground utility boxes shall be placed at the rear lot lines or sufficiently screened.
